Powder King®, LLC Expands Into New Headquarters

Anthem, AZ (March, 2005) – Powder King®, LLC announced the expansion of their world headquarters. Powder King® is a leading manufacturer of pulverizing systems and supplier of pellet, powder conveying, silos, dust collection, in addition, Powder King® is the exclusive distributor Littleford Plastic International line of rotational molding machines.

Since their inception in 2003, Powder King® has grasped an unprecedented share of the worldwide market of pulverizing equipment. They recently completed their third installation and sale of their fourth PK pulverizing system in South Africa. In response to this growth and the addition of two new equipment lines including rotational molding machines and mixers, Powder King® will be utilizing the new facilities for offices, showroom and a test grinding facility. Powder King® will continue to maintain 22,000 sq. ft. manufacturing facilities in Massillon, Ohio with partner King® Machine & Tool.

“It’s amazing how quickly we’ve outgrown our current offices,” remarked Jim Hummel, President of Powder King®, LLC. “The new headquarters will enable us to offer customers the services that they’ve been requesting including test grinding. The test grinding facility will be state-of-the art providing customers the ability accurately assess their material cost savings from in-house grinding.”

This expansion is a critical step in Powder King’s strategy to be the leading full service equipment manufacturer and supplier to both the rotational molding and plastic pulverizing industry.

The new business address is 41780 N. Vision Way, Unit 120 Bldg 2 , Anthem, AZ 85086, Phone: 623-551-9897 Fax: 623-551-8571 and web adress www.powder-king.com.
